Newsletter Dec 2011

## Recap From Last Time

PC Faxing : Fax from you PC and save time and paper

I.T Box: Keep all you I.T. stuff in one place for the time it's needed

Printing From Iphone & Ipad & Android Phones: It is possible

## This Month

### Telephone lines:

If you ever heard crack and noise on your phone this could mean you are missing a ADSL line filter on your modem or other phone lines in the house or you have a noisy phone line, this can lead to ADSL speed performance, and drop outs

### Mobile Hotspot:

The newer smart phone like Iphone, HTC, Samsung have there own hotspot router function. This mean your mobile phone can be used as a wireless router so you can connect tablet PC's, laptops, DS, PSP to it for internet access.

### Dust:

If your computer has a side vent look inside and see if there is allot of dust if so it may need to have the dust removed, too much dust will lead to the computer over heating, this leads to computer shutting down or other damage. You can open the case and use a vacuum or drop it off to me to have thoroughly cleaned.
